

## Vic Mahoney Centre

At the VMC, we try to accommodate to everyone's wishes through person directed planning. We provide different activities on a daily basis, volunteering by giving back to the community and participation in community events.

We work all year on a variety of contracts. This is monthly revenue to the hardworking people.

During the summer months we like to spruce up the schedule by offering activities such as; day trips out of town, special outings, fun and games etc...

## Our Mission

That all people live in a state of dignity, share in all elements of living in the community and have the opportunity to participate effectively.

# Vic Mahoney Centre

## We want to:

Foster and promote environments in which individuals can have the human and civil rights that are for everyone.

Foster and promote safe and respectful environments for people to learn, live and share in the benefits of our community.

Connect people to natural supports in all aspects of the community. CLTIC is only one small part of the whole community.

Use person-centred planning to ensure the decisions and supports make sense to the individual person.

Regularly evaluate services to ensure they are meeting the needs of people we support as best as possible.

## Partnerships

The VMC thrives on working with other community partners ie. sandwich making for the Risk Takers that feed those in need. The VMC also participates in the socks program as well as being partners with wood working and Premier Recycling.

The VMC is a safe place to foster relationships and build on social activities in preparation to have individuals engaged in the community. They operate with a monthly calendar that is person centered offering up activities such as recreation, nutrition, volunteering and participating in the community.

## Our Goal

That all people live in a state of dignity, share in all elements of living in the community and have the opportunity to participate effectively.
